

In response to an inquiry by the Committee regarding the cost of telemonitoring, Mark Wheeler, Executive Director, Iowa Alliance in Home Care provided the following:

Dear Study Committee Members:

We had a committee recently develop some pricing guidelines:

Initial Set-up with training - \$125/one-time

Remote Chronic Disease Management:

Basic - \$10 - \$12/day

Advanced - \$12 - \$15/day

Note: Typically, this would be a monthly rate that breaks down to these daily amounts.

Please let me know if I can provide any additional details.

Mark
